Marlton, NJ 08053

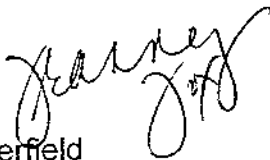

Dear Staff of the Marlton Animal Hospital,

I wanted to inform you of the experience I had with the *Dog Training Company*. As you know, I needed to gain some control over a very active male Yellow Labrador, Griffey. I investigated several Dog training facilities and found that I liked the philosophy of the *Dog Training Company* the best. After receiving the information, reading the newsletter, and speaking with the owner about the various programs, I decided to send Griffey to the residency obedience program.

I am not very experienced with such programs, but I must commend the *Dog Training Company* for the end result. I was extremely pleased with their communication on a daily basis. They assured our family that he was doing well and advised us how to correct some of his bad habits. Ron, the trainer, has such a wonderful way with animals. His tone is very calm, but direct. When it was time to pick Griffey up after a week of training, he spent well over an hour working my husband and me. In addition, he came to the house and taught our children how to work with the commands.

I highly recommend the Dog Training Company. The owners, Ron and Susan, should be commended on their dedication to building such a fine reputation and dedicating quality training and care for their animals. They have grown to the point that they are moving expanding their facility in order to accommodate their clients more efficiently.

Sincerely,

K.Griffey of Amberfield
